# INTRODUCTION

slido

**What's your biggest challenge in your organization now?”**

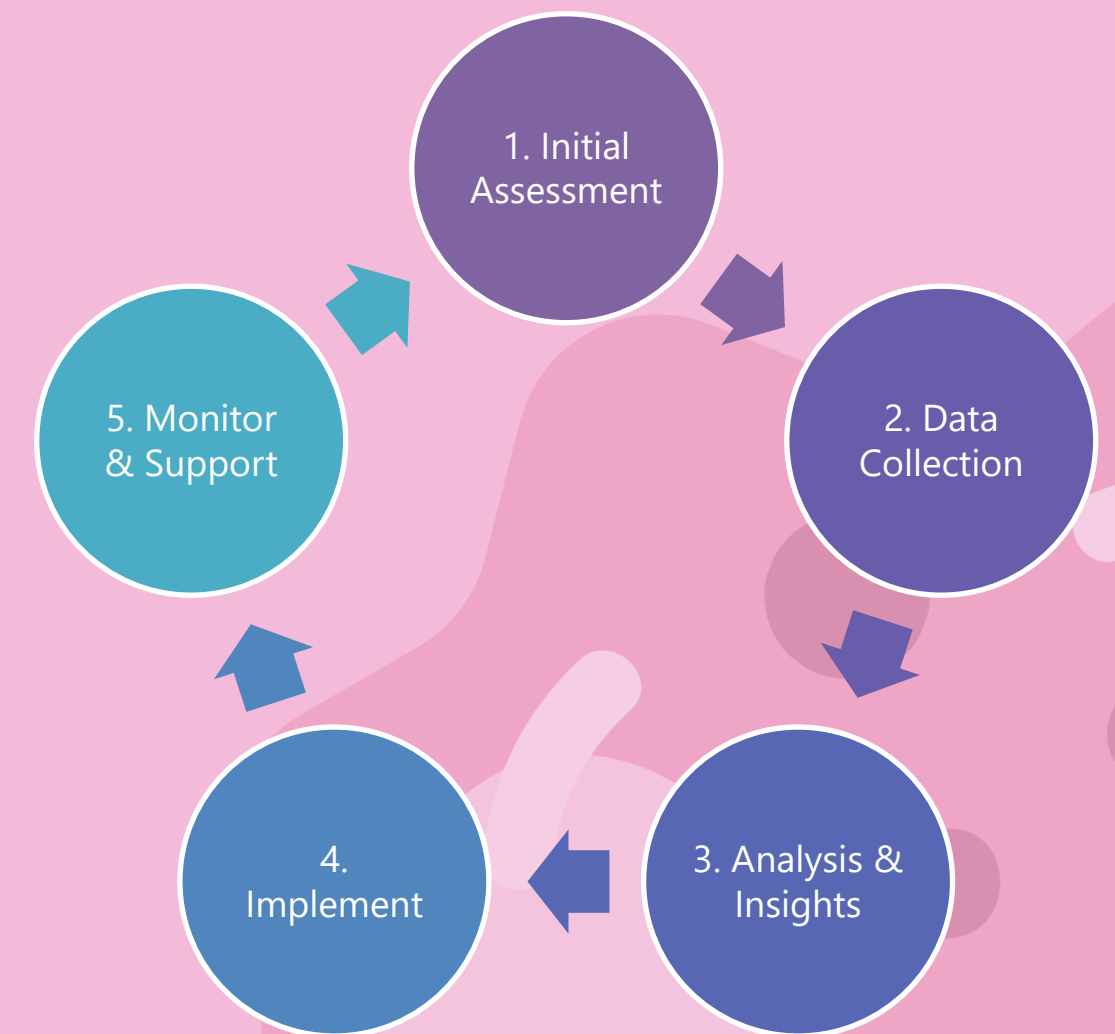

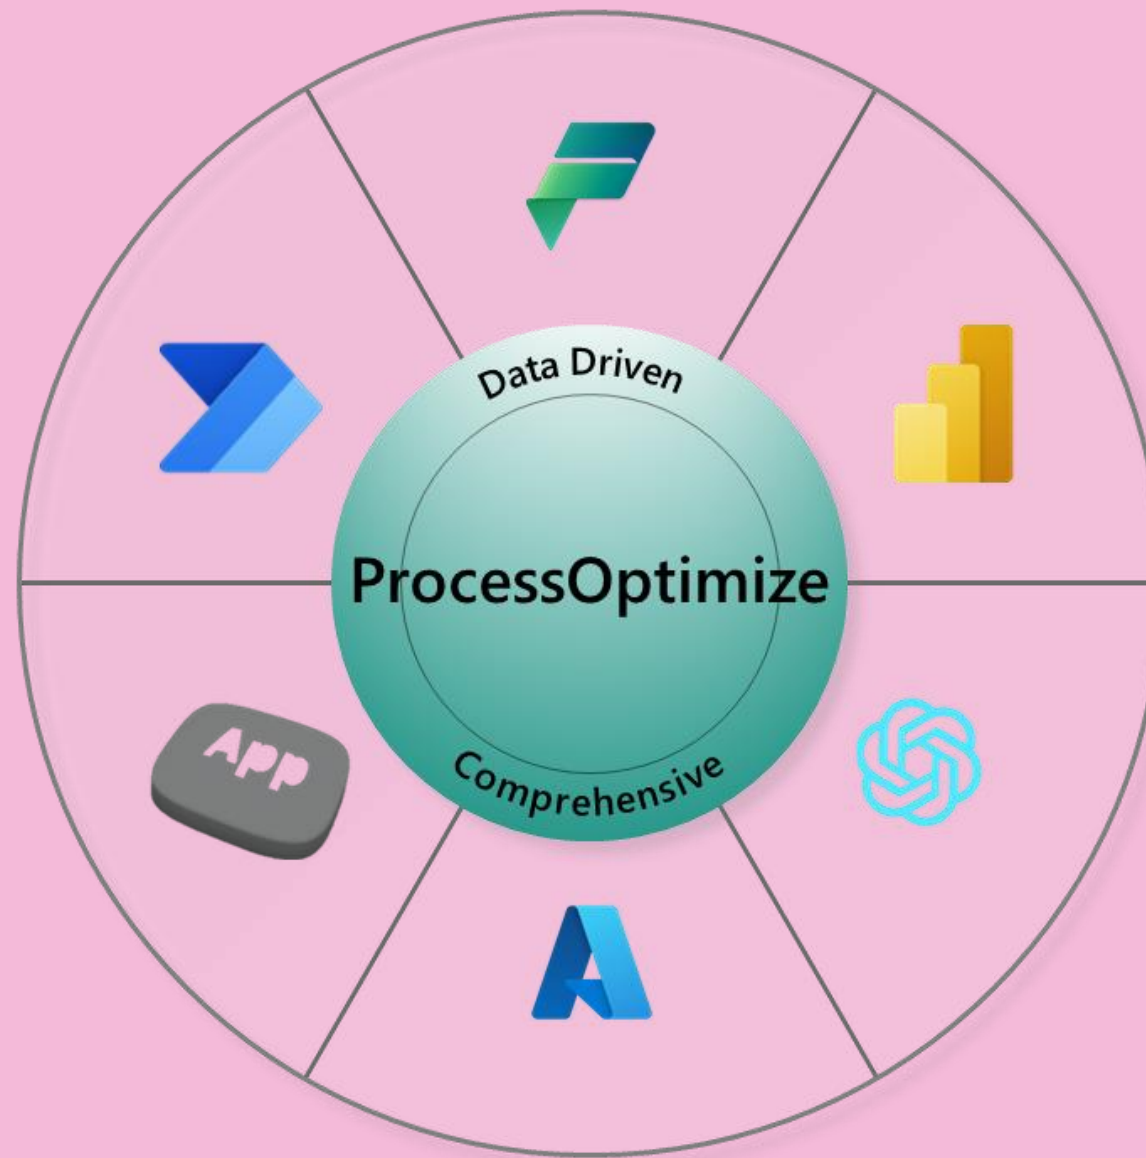

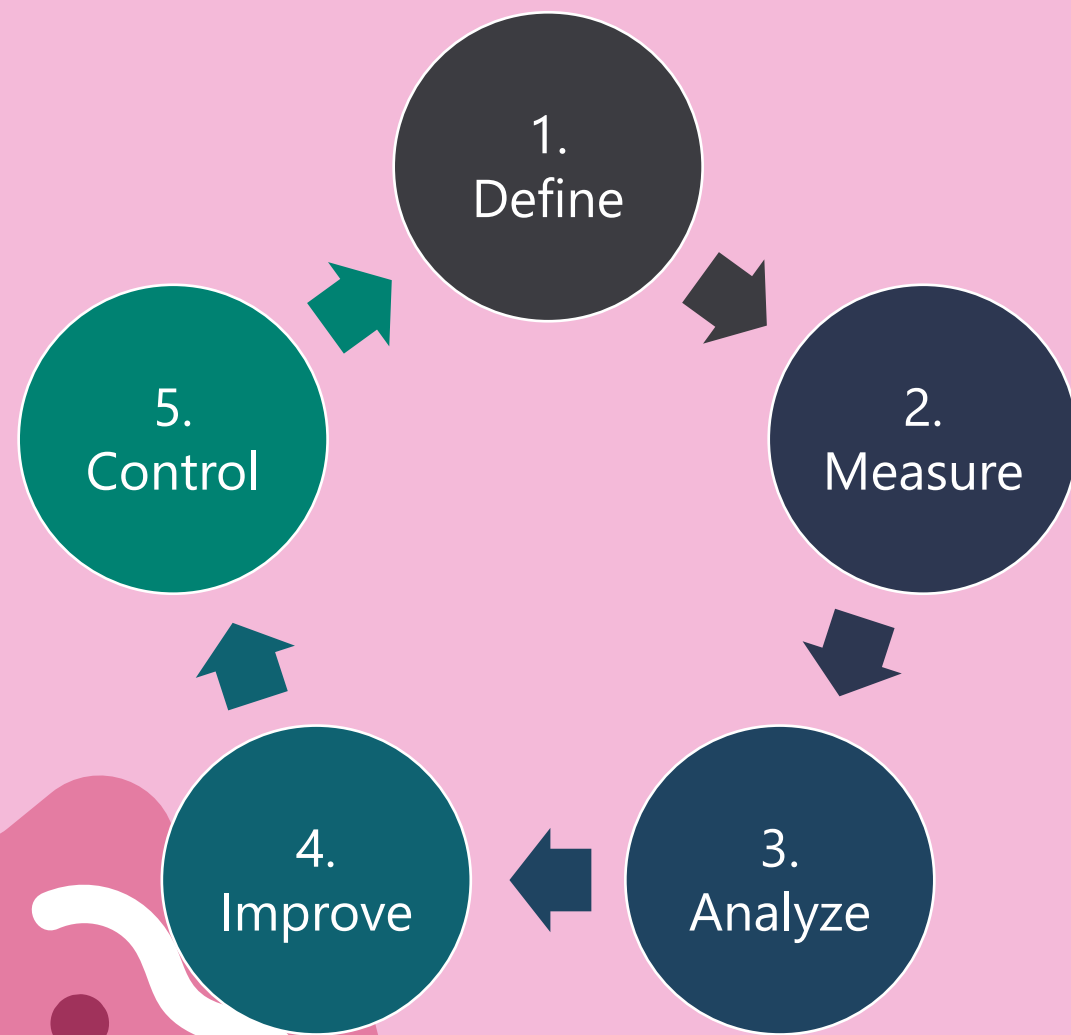

# THE PROBLEM

## MANUAL EXPENSE REPORTING

# PROCESSOPTIMIZE TO THE RESCUE

# POWER AUTOMATE: PROCESS MINING

01

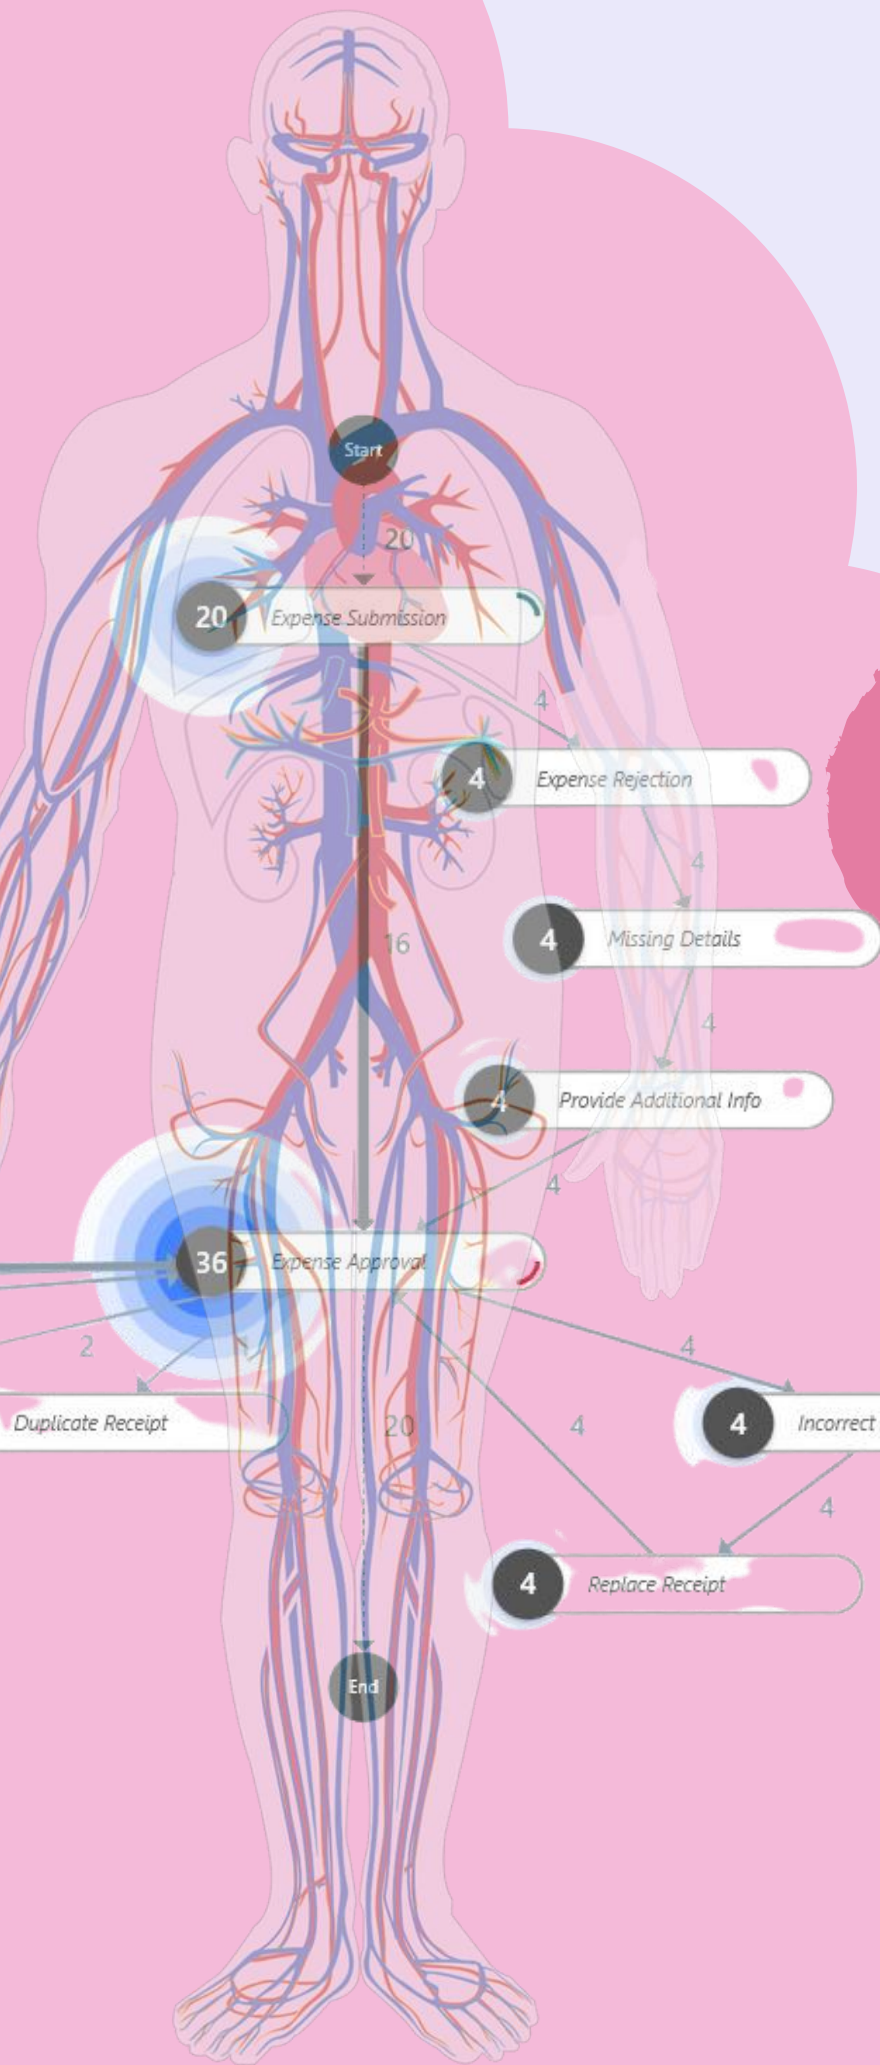

**Visualize process & identify variations**

02

**Analyze performance**

03

**Optimize process**

# POWER AUTOMATE: TASK MINING

01

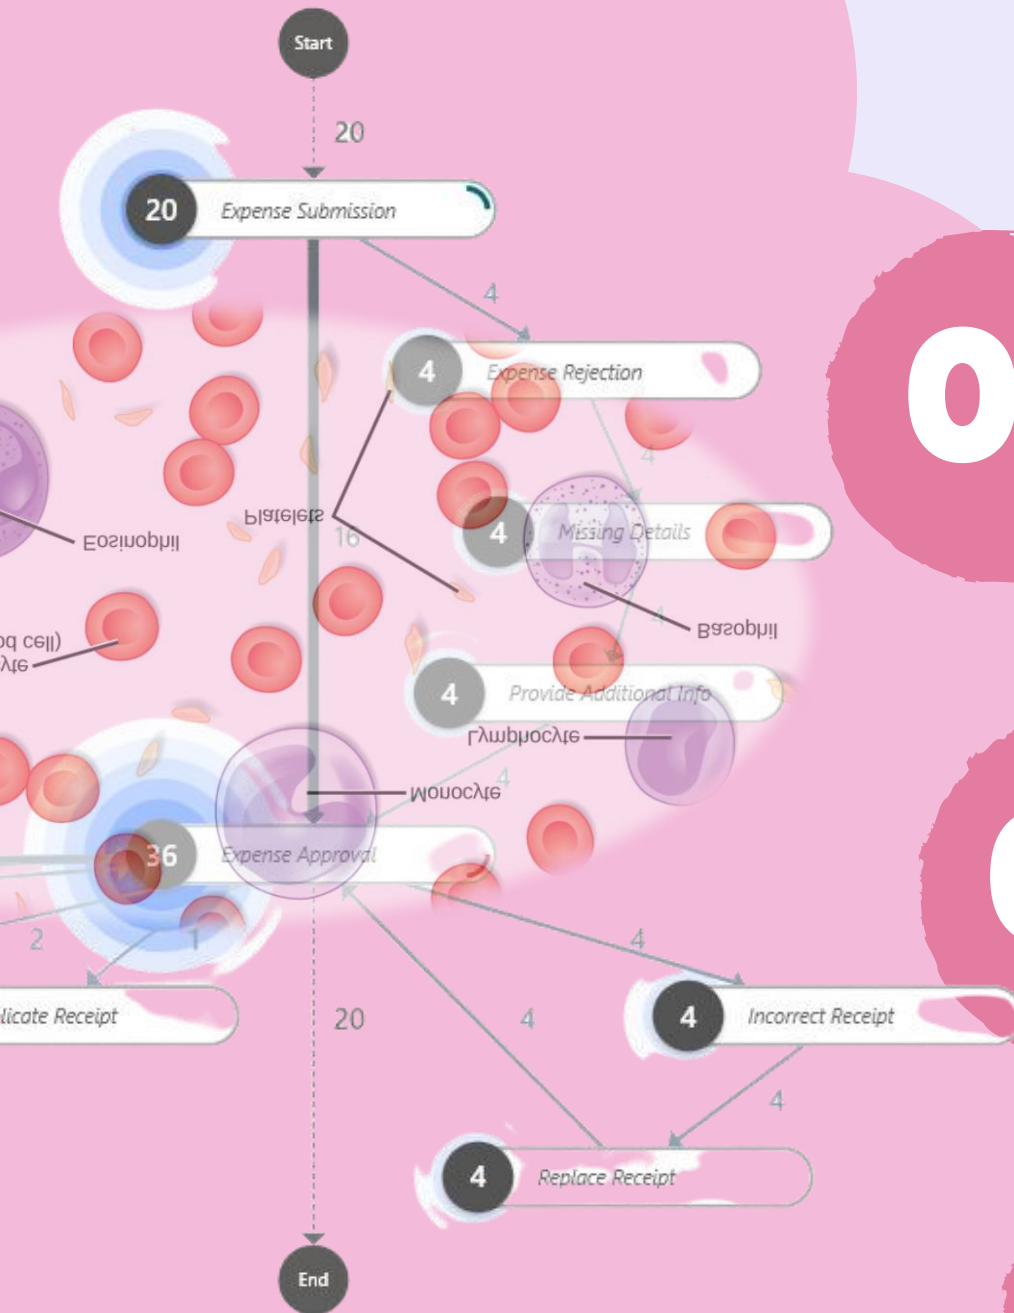

**Capture user interaction**

02

**Generate process documentation**

03

**Identify automation opportunities**

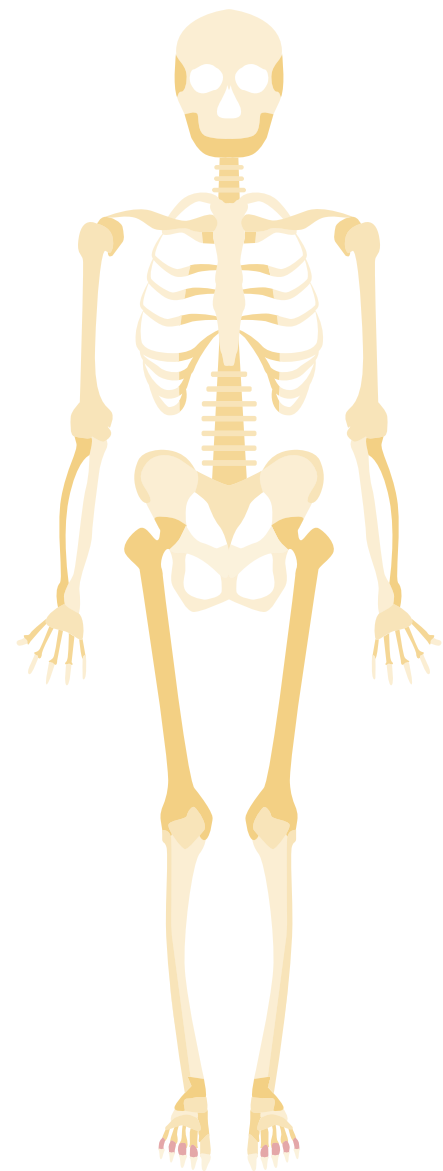

# #KEYTAKEAWAYS

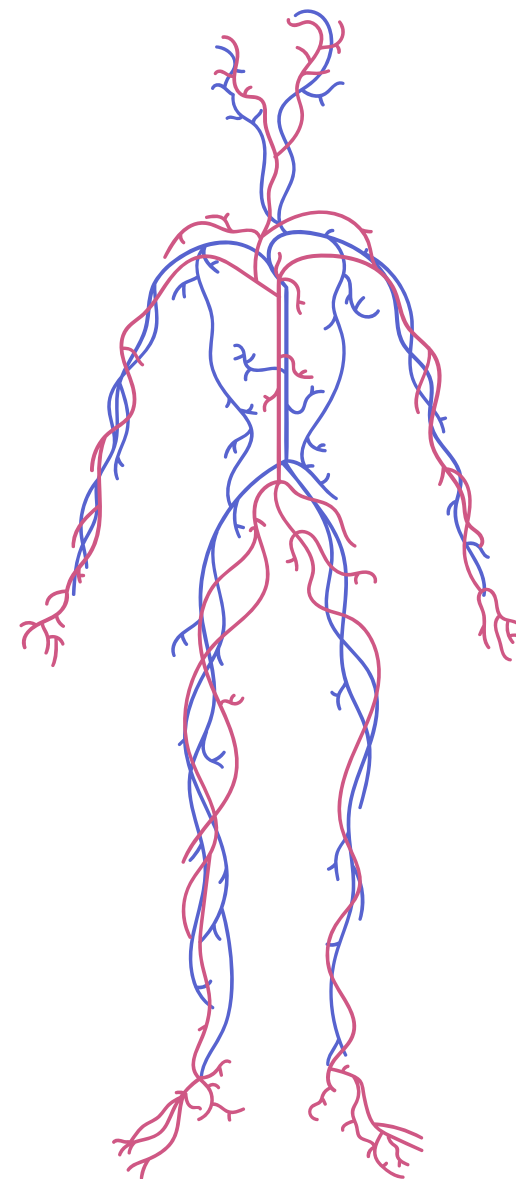

## ORGANIZATION

Let us elevate on how we work with our data and business processes.

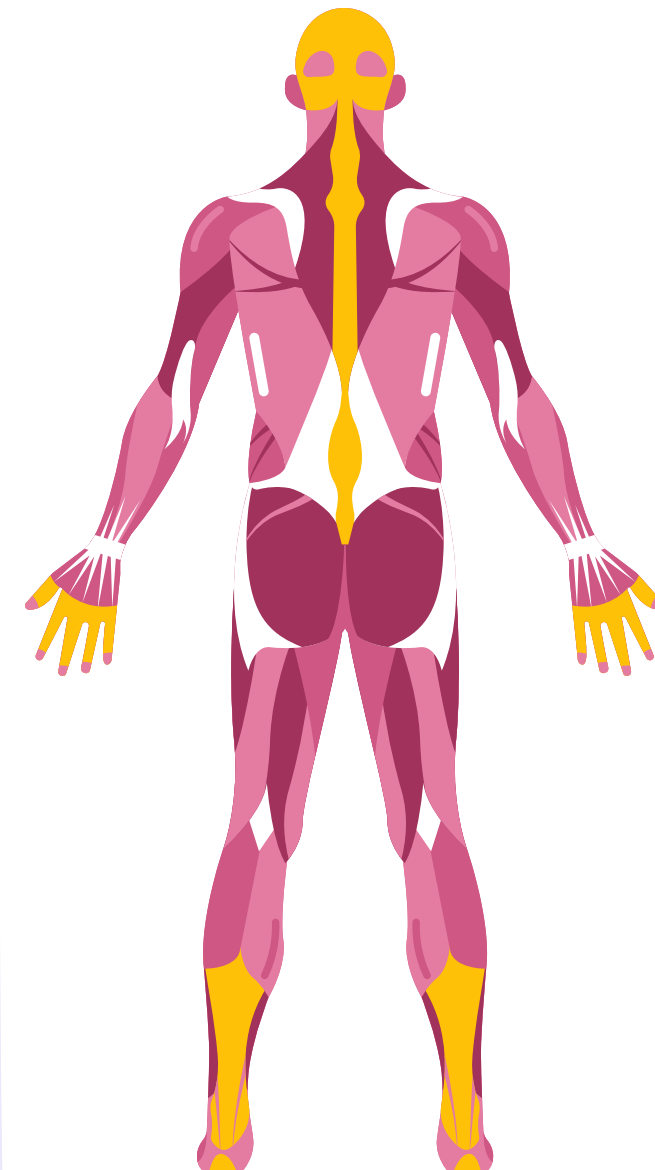

## PROCESS MINING

Let us understand the inefficiencies and address areas for improvement.

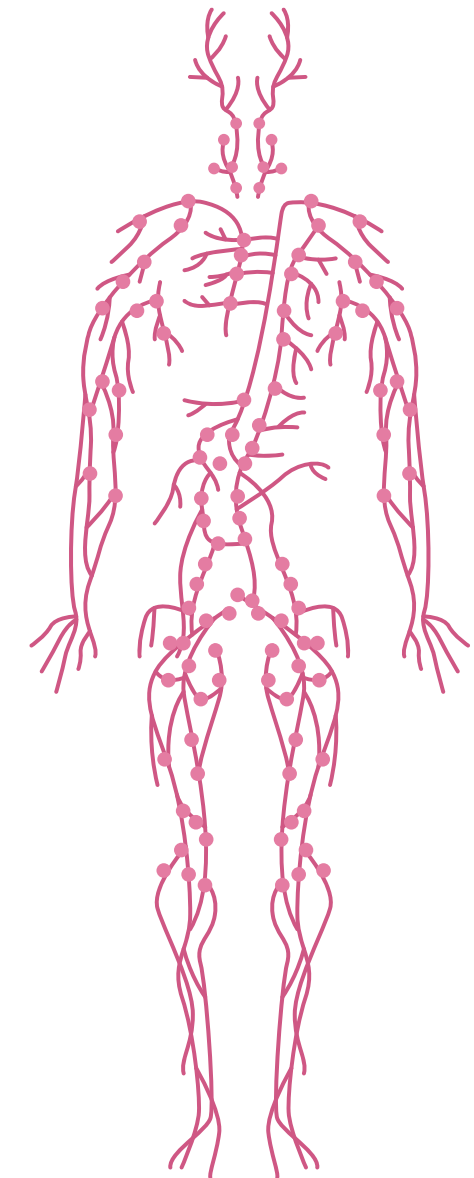

## TASK MINING

Let the solution interact with applications and automates the documentation of tasks, which can then be analyzed for process improvement.

## POWER AUTOMATE

The 'nervous system', tirelessly detecting, signaling, and responding to a range of events and actions within your organization.

# CONCLUSION

**Data, Processes, Tasks: The Harmonious Trio. Microsoft Power Automate Process Mining and Task Mining—unleashing insights, streamlining workflows, and sparking innovation.**
